

ROSTERELF + XERO

Payroll-ready timesheets, automatically.

RosterElf turns rosters and clock-ins into award-interpreted, payroll-ready data and sends it straight into Xero Payroll — no manual re-keying, no spreadsheet gymnastics, far less rework at pay run.

T WHAT FLOWS TO XERO

HOURS	Approved timesheet hours per employee, per day
PAY ITEMS	Ordinary, penalty & overtime mapped to Xero pay items
ALLOWANCES	Award allowances calculated and itemised
LEAVE	Leave hours passed through to the pay run
EMPLOYEES	Mapped once to Xero employee records
DIRECTION	RosterElf → Xero (timesheets/pay data)
REGION	Xero Payroll (Australia)

SET UP IN FOUR STEPS

1

Connect Xero

Authorise the RosterElf ↔ Xero connection for the client's organisation.

2

Map employees

Match RosterElf staff to Xero employee records — once.

3

Map pay items

Link ordinary, penalty, overtime and allowance pay items.

4

Approve & export

Approve timesheets and push the pay run to Xero in a click.

WHY ADVISORS AND CLIENTS LOVE IT

- ✓ **Less rework at pay run** — approved hours arrive already award-interpreted.
- ✓ **Fewer errors** — no manual re-keying between systems.
- ✓ **Award compliance** — penalties & allowances applied to Fair Work modern awards.
- ✓ **One source of truth** — rosters, hours and pay stay in sync.
- ✓ **Faster pay days** — export in a click instead of hours of prep.
- ✓ **Clean audit trail** — timestamps, approvals and GPS/photo evidence.

Good to know: RosterElf also integrates with MYOB. Employees and pay items are mapped once, then every future pay run exports in a click — so onboarding a client is a one-time setup, not a recurring chore.

Cut pay-run time for every client.
Talk to your RosterElf advisor about connecting Xero.
